

## Jim Restivo

---

### Chief Technology Officer | Dodge Data & Analytics

Jim Restivo is Chief Technology Officer of Dodge Data & Analytics, where he has oversight of technology operations, product development and delivery, information security, and data engineering.

Jim has 25 years of experience leading organizations to technology-driven growth through strategy, innovation, and management. Most recently, he was Vice President and Chief Technology Officer of Smarter Workforce for IBM. In this role he transitioned the technology offerings of IBM's newly acquired Kenexa to IBM. Prior to that he was Chief Knowledge Officer and later CTO at Kenexa, where he managed the company's global R&D, SaaS operations, and information security and data privacy.

Earlier in his career, Jim founded Blue Angel Technologies, a Web-based knowledge management solutions company that was recognized on the Inc. 500 Fastest-Growing Companies list for two years. He also served as Vice President of Development for Vertex Inc., the leading provider of corporate tax software. Jim has advised numerous software companies on best-in-class software development practices and has served as a principal innovator for early stage software companies.

Jim holds a B.S. in Computer Science, and Applied Mathematics and Statistics from Stony Brook University and an M.S. in Computer Science from Massachusetts Institute of Technology.
